## ANNOUNCING THE NEW Exakta 66

The New 1985 Exakta 66 SLR Camera with interchangeable German Schneider lenses was announced recently in Germany! This new 2-1/4" x 2-1/4" Exakta 66 has a focal plane shutter (with speeds from 1 to 1,000 sec.) and many intermediate speeds for all types of photo assignments. Camera takes 12 exposures on 120 roll film and 24 on 220 film. A TTL prism finder permits eye-level shooting with metering. There is also a new waist level finder. A new mechanism cross couples the meter with the camera shutter and aperture scales of the various interchangeable lenses. The Exakta 66 has a new charcoal-black finish and is designed for heavy duty work. The Schneider lens lineup for the Exakta 66 consists of an 80mm Symmar M f2.8 (standard optic) a 60mm Curtagon f3.5; 150mm Tele-Xenar f4; 55mm SuperAngulon PCS f4.5 perspective control lens; plus two Zoom lenses; 75-150mm f4.5 and 140-280mm f5.6. This beautiful camera is scheduled for delivery about September 1985.
